Individual Action Plan for When We Return to Campus

This conference is a professional conference for you; and we want to be sure you have the opportunity to take ideas back to campus. Over the course of the conference, you will hear about how programs and initiatives, opportunities for increasing involvement, ways to enhance your student government, and much more from our talented presenters and your colleagues at other schools. We want you to have a way to take notes and process the information upon your return and hope that you will use this as a tool to accomplish that task.
