

GUIDE TO ASGA WORKSHOPS

How do you choose which workshops to attend? Look for these icons on the conference schedule to decide which workshops will best meet your needs.

Goal-Setting Techniques

These sessions will provide your SG with techniques for realizing your full potential. Often our SG sets goals at the beginning of the term, but by mid-term we have lost our way. We have not made the kind of progress we wanted or found that we can't achieve what we set out to do. Sometimes it's the loftiness of our expectations that were the problem from the start. Other times, we just didn't operationalize our goals with action plans. If your outcomes don't measure up to your goals, attend any of the sessions with this icon.

II *What Can Your Student Government Really Accomplish? Choose Realistic Goals* – Butch Oxendine

Ethics & Integrity

In a world where the media is consistently highlighting authority figures who have lost their way ethically, it is important for us to ensure we are reflecting on our own actions and those of our SG. These sessions are designed to provide you with a framework for assuring yourselves and the students you represent that your SG's work benefits them, not the individuals serving them. If you think it is time to take stock of this issue, then you or someone from your delegation should attend one of the sessions with this icon.

E *Do the Right Thing: Ethics and Your SGA* – Vicky Goodin, Ed.D.

Organization Effectiveness

These sessions will set your SG up for success with helpful tools. Whether you're a newly established, struggling, or high performing SG, organizational effectiveness is an essential aspect to fulfilling your mission and goals. If your SG identifies this as a potential issue, do yourself and your student body a favor—make sure you attend any of the sessions with this icon.

Effective Advocacy

A core responsibility of every SG is to effectively advocate for the well-being and best interests of the student body. If we aren't focused on serving all students, then we're not doing our jobs as SG leaders. Whether it's administrators on campus, individuals within SG, or your SG's approach to advocacy, if you feel your SG needs help in this area, attend any of the sessions with this icon.

Delegation

Do you feel like only a few people are engaged in your SG? Sometimes we don't maximize our SG's potential because we fail to spread the work around. This can often lead to high rates of burnout and turnover within SG. If your SG isn't effectively utilizing the wealth of talent within its ranks, attend any of the sessions with this icon.

Training & Development

New leaders cycle into SG every year, and in some instances, multiple times a year, so quality training and development of your SG officers and legislators is essential. If not everyone is on the same page, or functioning with the same information, it will drastically impact your operations. If your SG struggles in this area, attend any of the sessions with this icon.
