3. What's something you learned that you wish the rest of your SG could've heard?

STEAL THIS IDEA.

Other SGs have great ideas. Borrow them.

4. What are the best ideas you picked up from other SGs that we could use on campus?

5. What surprised you in conversations with students or advisors from other schools?

6. Who did you meet that you'd like to stay in touch with? Why?

OUCH. THAT SOUNDS LIKE US.

Every SG has problems. What's yours?

7. Where does our SG fall short? List the problems that need attention.

8. What's the ONE thing our SG most needs to improve, and why?

9. What are we already doing well that we should keep doing?

BRING IT HOME.

Great ideas don't mean much if nobody does anything with them.

WAS IT WORTH IT?

You've got the ideas. Which ones are worth doing?

13. How will this change help the students we represent?

14. What's our first step to get started?

NOW DO SOMETHING.

Don't let these ideas die when you get home.

15. Who's responsible, and when will we start?

16. How will we know if we made a difference?
